Renata – the world-class leader in coin and button cells.

Renata is a leading manufacturer and supplier of coin cells for medical devices, disposable medical sensors, watches and many electronic product areas. The company offers a broad portfolio of silver oxide, lithium and zinc-air batteries.

It also conducts the entire production process of batteries: from punching the battery housings, through the injection molded plastic seals, sourcing of raw materials, mixing the compounds of the cathode and anode material until the final assembly and quality control.

The offering focuses on the differentiation between high-drain and low-drain cells, vital to meet the high technical demands of the watch sector, among many other applications.
